This little pop-up penguin is going to blow your mind! Several times this week on Facebook I was tagged in an article about Kamikara, which is the Japanese word for trick papercrafts. Among these crazy papercrafts was a penguin that popped up when you dropped it on a surface. I was fascinated and set out to learn everything I could. It's no secret I love to figure out extreme papercrafts, like ...

Anaglyph 3D is the name given to the stereoscopic 3D effect achieved by means of encoding each eye's image using filters of different (usually chromatically opposite) colors, typically red and cyan. Anaglyph 3D images contain two differently filtered colored images, one for each eye. When viewed through the "color-coded" "anaglyph glasses", each of the two images reaches the eye it's intended ...
