Diskspd, or diskspd.exe, is Microsoftâ€™s replacement for SQLIO. While Iâ€™m not going to replace our SQLIO tutorial, you can use the information in here to replicate the same type of tests on your systems to get the information you need. During the Dell DBA Days, Doug and I used diskspd as one of our techniques for getting a baseline of raw performance.

The .NET framework does not contain any native way to work with PDF files. So, if you want to generate or work with PDF files as part of your ASP.NET web application, you will have to rely on one of the many third party components that are available. Google will help you to find one that fits your budget, as well as a range of open-source free components.
