decades, largely because of twin push (the closure of Iraq to foreign archaeology) and pull (salvage campaigns in advance of dam projects) forces. As a result, what was once considered to be the periphery of early urbanism and state formation in southern Mesopotamia (modern southern Iraq) has emerged as a region of interest in its own right.

At the turn of the 20th century, Koldewey, who later worked at Borsippa and Fara, and his successors, including Walter Andrae, who excavated Ashur, brought a scientific approach to archaeology in Mesopotamia, and garnered a reputation for meticulous attention to stratigraphy and architecture that became synonymous with German archaeology.

### **A Brief History of Archaeology in Mesopotamia [CDLI Wiki]**

The history of Mesopotamia ranges from the earliest human occupation in the Lower Paleolithic period up to the Late antiquity. This history is pieced together from evidence retrieved from archaeological excavations and, after the introduction of writing in the late 4th millennium BC, an increasing amount of historical sources.
