the new value investing pdf

Value investing is an investment paradigm which generally involves buying securities that appear underpriced by some form of fundamental analysis, though it has taken many forms since its inception. It derives from the ideas on investment that Benjamin Graham and David Dodd began teaching at Columbia Business School in 1928 and subsequently developed in their 1934 text *Security Analysis*.

Artificial Intelligence and Value Investing

A value network is a business analysis perspective that describes social and technical resources within and between businesses. The nodes in a value network represent people (or roles). The nodes are connected by interactions that represent tangible and intangible deliverables. These deliverables take the form of knowledge or other intangibles and/or financial value.
